## GOVERNOR WELCOMES ROYAL COUPLE

### Queen Greeted In U.S. By 10,000 Spectators

WILLIAMSBURG, Va. (AP) — Queen Elizabeth arrived in the United States today to a booming 21-gun salute.

The 31-year-old monarch's plane touched down at Patrick Henry airport at 2:27 p.m. EDT after flying from Ottawa. It was "queen's weather" — bright sunshine and crisp autumn air.

Governor Thomas B. Stanley of Virginia welcomed Her Majesty, who said in response, "We are particularly happy that our first stop is in the beautiful old Dominion state."

A crowd estimated at 10,000 stood by at Patrick Henry airport as the Queen took the salute and welcome, and inspected a guard

of honor from all the U.S. armed forces.

#### BIGGEST WELCOME

Prior to their departure from Ottawa, Queen Elizabeth and Prince Philip received the loudest welcome of their four-day Ottawa visit from 15,000 wildly cheering, flag-waving public and separate school children at Lansdowne Park.

The stop at the park was made en route to the airport for their flight to the U.S.

The children packed the football stadium stands in chilly weather. A heavy mist hung across the field almost until the Queen arrived at 10:09 a.m. EDT.

Just minutes before the royal cavalcade drove slowly onto the field, a slight breeze cleared away most of the mist and the sun broke through.

A tremendous shout broke across the field as the Queen and Prince Philip drove up in an open black limousine and stopped in front of the main grandstand.

The children, mostly between the ages of six and 13, almost all held miniature Union Jacks and Canadian Red Ensigns.

The Queen was greeted as she stepped from the limousine by Mayor George Nelms of Ottawa. He escorted her and the prince to a raised dais on the field with prime minister and Mrs. Diefenbaker following.

As they reached the dais and turned to wave at the crowd, a fresh swell of cheering and applause swept the stands. The Queen smiled warmly and both she and the prince continued waving to the children.

Both appeared to be pleased and touched by the tremendous demonstration of affection.

# Syria Fears Attack From Turkish Forces

## France Paralyzed As Workers Strike

PARIS (CP) — France was virtually paralyzed today by a wage strike of gas and electricity workers of the state-owned industries. The walkout was due to last 24 hours.

Electric trains were halted throughout the country. Factories were silent in one of the biggest industrial stoppages in years. The strike's paralyzing effect took the country by surprise.

Sixty thousand workers were idle in three automobile factories in the Paris region alone. Some plants managed to carry on with their own emergency generators.

In Le Mans, it was estimated that two-thirds of the town's industry and commerce were paralyzed.

There were no streetcars in many provincial towns.

Electricity board officials said the strike was almost general throughout the industry. France's electricity supply was about one-tenth of normal.

Telephones, which depend for power on a post office emergency system, are operating normally.

Most radios in the city were silent. The French national radio was unable to transmit in Paris.

DEFENDS SYRIA

Egyptian Foreign Minister Mahmoud Fawzi is seen arriving at U.N. headquarters where he spoke out in defense of Syria before the U.N. General Assembly. The Egyptian foreign minister said, "I feel impelled to state that Syria is Egypt's ally as well as Egypt's blood relation and I wish in no equivocal terms, to leave no scope for doubt whatsoever that Egypt for its part, shall not tolerate that even a fingertip of Syria be hurt, or a hair of Syria be ruffled by any aggressor."

## UN Inquiry Asked In Border Crisis

UNITED NATIONS, N.Y. (AP)—Russia today called on the United Nations to stop an alleged plot by "ruling circles" in the United States and Turkey to attack Syria late this month. It announced readiness to furnish Soviet forces to help suppress such an attack.

UNITED NATIONS, N.Y. (AP)—Syria today called for an urgent United Nations inquiry into an "intolerably dangerous" situation on the Turkish-Syria border.

The move was made by Syrian foreign minister Salah Bitar, who charged that concentration of Turkish troops along Syria's border "presages imminent attack."

He asked the General Assembly to act urgently on what he called "threats to the security of Syria and to international peace."

The Syrian initiative took UN delegates by surprise. A member of the Turkish delegation hurried to a committee meeting to give the news to Turkish ambassador Sayfullah Esin.

SITUATION GRAVE  
The action here followed a sharp deterioration of the situation within the last few days. In Damascus yesterday, the Syrian foreign ministry summoned foreign diplomats and presented a declaration that Turkey intends to "launch a premeditated action against Syria."

Earlier Egyptian reinforcements had arrived in Syria. Turkey handed a letter to Secretary-General Dag Hammarskjöld late yesterday accusing the Syrian government of echoing Soviet propaganda attacks on the Turkish government.

Turkish ambassador Seyfullah Esin denied Syrian charges that troop movements in Turkey were of a threatening nature.

MUST BE ON GUARD  
In Washington, Secretary of State Dulles said today the United States must be on guard against the possibility of an attack by Syria and Russia against Turkey.

Dulles said that in event of such an attack the United States would not leave the Soviet Union a privileged sanctuary.

Along with his warning, Dulles said he thinks an outbreak of war in the Middle East is unlikely, largely because of the United Nations focus of attention on the area.

ALLIANCE REJECTED  
Meanwhile, leaders of Western Europe's socialists in London turned a cold shoulder to Nikita S. Khrushchev's invitation for an alliance against alleged U.S.-Turkish threats to attack Syria.

Khrushchev's appeal was the second move within three days to back up the Syrian charges against Turkey and the United States. Egypt's President Nasser sent troops to Syria Sunday.

Political Crisis  
Near Solution  
PARIS (Reuters) — Chances of solution brightened today as the political crisis which has left France without an effective government for the last 18 days, France's 23rd cabinet crisis since the war.

Hopes rose that Conservative leader Antoine Pinay will find the support necessary to invest him as premier.

After five days of discussions with party leaders, Pinay outlined his program Tuesday night at a press conference.

He said he must be guaranteed at least 12 months in office and must be given special powers to deal with financial, administrative and economic problems by decree without reference to the assembly.

He is expected to seek a new reform bill for Algeria and to plot new financial reforms if he wins the premiership.

MONTREAL (CP) — A woman, her two children and her sister, died early today in a fire at suburban Pointe-aux-Trembles.

## Mary McIlwain Rites Tomorrow

Funeral services will be held tomorrow afternoon from Penticton Funeral Chapel for Mary Helen McIlwain, 68, who died in Penticton Hospital Oct. 14.

A resident of Naramata for the past two years, Mrs. McIlwain was born in Cheshire, England, coming to Canada 38 years ago. She had lived in B.C. for the past 34 years.

Mrs. McIlwain is survived by her husband William James, and a son Harold at Wells, B.C.

Rev. Canon A. R. Eagles will officiate at the funeral services and burial will be in Lakeview Cemetery.

## Paul Hearing Continues

The preliminary hearing of charges against Martin Paul, of the Penticton Indian reservation, charged with criminal negligence in the death of his brother, Gabriel Paul, 30, who died May 12, in Penticton General Hospital reopened this morning.

Case for the prosecution is being presented by John S. Aikins, of Penticton, with A. D. C. Washington as defence counsel.

Sgt. Thomas James Kelley was first witness describing his two interviews with the accused. The first took place in the police station on May 30 at which time the accused along with his mother and the interpreter were present.

Using Mrs. Gabriel as an interpreter Sgt. Kelley told the court he asked the accused to tell the truth about his brother's death and he said he would.

The hearing is still continuing.

## Klingbeil's Workmates Sign Petition

VANCOUVER (CP) — A petition signed by his workmates will seek commutation of the death sentence imposed on Calvin Klingbeil for the murder of Vancouver grocer Lee Yick Mung on May 18.

Klingbeil is due to be hanged December 17. The appeal has been organized by Charles Stewart, business agent of Local 101 of the Street Railwayman's Union. Klingbeil was employed as a serviceman in the garages.

Mr. Stewart said the petition will be sent to Justice Minister Davie Fulton.

"The petition has had very wide support. Klingbeil was well thought of by his workmates. I believe that all who knew him will sign."

## LARGER DEPOSITS

### Cut In Electric Rates Considered

At least some Penticton residents may pay smaller electric power bills next year but they will be required to post larger deposits when applying for electrical service.

City council last night felt there should be some reduction in the commercial rates now being charged but the deposits for both commercial and residential service should be increased from the present \$5 to \$10 or \$12.

The West Kootenay Power & Light Co. from whom the city purchases power in block for resale to city residents, is also to be approached on whether the electricity might not be purchased more cheaply.

The whole matter is to be discussed at a committee meeting of council one week from tomorrow.

City Treasurer H. W. Cooper emphasized that some decision on next year's power rates must be made soon because new billing equipment is being procured and the rate structure must be decided ahead of time.

The period of grace for payment of accounts before service is cut off, may also be reduced from the present 30 days to 10 or 20 days.

## Britain Plans New Series of Hydrogen Bombs

LONDON (AP) — The News Chronicle says Britain will carry out a new series of hydrogen bomb tests over Christmas Island this winter.

The report says: "The H-bombs will drop three or more H-bombs each, equal to more than 1,000,000 tons of TNT."

## TODAY'S BULLETINS

### CPR Suspends Second Five-Man Crew

VANCOUVER (CP) — A second five-man crew was suspended by the Canadian Pacific Railway today for refusing to take a train through a union picket at nearby loco. The action was taken by the railway as the Oil, Atomic and Chemical Workers Union strike at the Imperial Oil products refinery entered its 22nd day.

### Seeks Increased Unemployment Benefits

VANCOUVER (CP) — The federal government will be asked by labor to increase unemployment benefits to meet the needs of the jobless here this winter. Vancouver District Labor Council decided on this action after delegates expressed fears that there will be 60,000 unemployed in Vancouver this winter.

### Declines to Explain Rocket Failures

WASHINGTON (AP) — The U.S. Air Force today begged off explaining a published report that it had failed in three attempts to send a research rocket 4,000 miles out into space. The New York Times and the Chicago Tribune said today one failure occurred before Oct. 4, when Russia blasted its earth satellite into the skies, and that there have been two more failures since then.

### Court of Appeal Upholds Conviction

VANCOUVER (CP) — Conviction of Arthur Lionel Guinness, 64, for manslaughter and his five-year sentence were upheld by the court of appeal. Guinness was acquitted by an Assize Court jury of the murder of Mrs. Daphne Jean Blackstock, 10 Mile House, but was found guilty of manslaughter as a result of her death in his home last Dec. 14, following an alleged illegal operation.

### Gov't to Decide on Coast Guard Setup

OTTAWA (CP) — The question of setting up a Canadian coast guard is a matter of government policy on which there will be an announcement "in due course," Works Minister Green said today.

## WORK TO PROCEED IMMEDIATELY

# Pavilion Weathers Protests

Plans for construction of a \$50,000 lakeshore pavilion at Rary Park on Okanagan Lake as Penticton's centennial-jubilee project, successfully weathered a barrage of objections, now proposals and some abuse from a large gathering of city residents at city council meeting last night.

Council members, after listening to several views from the crowd of over 50 persons jamming the council chambers, refused to alter in any way their previous resolutions approving the project and the amounts to be contributed towards it by the city.

Construction work, already given the go-ahead by the centennial committee but delayed at request of Mayor C. E. Oliver till after objections voiced during the past two weeks could be debated at last night's meeting, is to proceed immediately as planned. The public subscription drive for \$15,000 towards the project may also begin.

The meeting was advised by F. H. Herbert that the Penticton Board of Trade executive had just passed a "unanimous vote of confidence in the centennial committee and the pavilion project."

Council's view was that any objections should have been voiced long before and not in mid-October.

after the first sod had been turned and the project was ready to get underway.

As for financing, focal point of much recent objection, council agreed there was no question about the city's ability to provide the total of \$33,500 it had agreed upon. This includes a grant of \$7,500 to match the provincial grant, a special contribution of \$15,000 and \$11,000 from next year's parks board account to cover cost of the change rooms which are to be included in the pavilion. With the provincial grant of \$7,500, a total of \$41,000 was already assured. Another \$15,000 is to be raised by public subscription.

Aldermen also reiterated their reasons for approving the pavilion project.

"It will serve a necessary and useful purpose," Ald. S. R. Hawkins said. "This town has become a tourist centre. The fruit industry will no longer support our population which has tripled in recent years. The tourist industry is vital to us to supplement our economy, and the pavilion is needed to promote our tourist industry."

### HOUSING PROJECT

The debate began with reading of a letter from John Hull, 532

Alexander Avenue, suggesting the pavilion would be too close to a beer parlor and the money could be put to better use for construction of a senior citizens' low-rental housing project.

Mayor C. E. Oliver explained that he had asked the contractor to delay work on the pavilion project to give council a chance to take "another look at the idea."

"It occurs to me that the taxpayers are not being consulted at all," observed Mayor Oliver.

"City council has twice agreed to spend its share of the money," pointed out Mr. Patton.

"And do you know what stopped it?" rejoined the mayor. "Uncertainty whether the money was available."

"The council has already voted it," interposed Ald. H. M. Geddes. "But you haven't got it," returned the mayor.

"Let's say we were voting on the credit of the city," replied Ald. Geddes.

"But I don't think council is elected to vote on the credit of the city," Mayor Oliver retorted.

"Well then, I would say that should have been decided a long time ago," replied Ald. Geddes.

"We have just as much money now as we had when we first vot-

ed it."

"Oh, no we haven't," put in Ald. F. F. Eraut. "We didn't anticipate having to repair the dam."

"Oh, yes we did," replied Ald. Geddes. "We anticipated it in this year's budget."

Here Ald. Hawkins read from the minutes of a council meeting May 13 at which a unanimous vote in support of the Okanagan lakeshore pavilion was recorded.

"The vote wasn't unanimous because I didn't vote," observed Ald. Eraut.

"No vote against the project is recorded," Ald. Hawkins rejoined. "But I asked the mayor specifically if he approved and he said he did."

A motion by Ald. Eraut that the whole matter be referred to a special committee of council failed to get a second.

## WREATH LAYING CEREMONY HIGHLIGHTS QUEEN'S VISIT

Among the more impressive ceremonies attended by Queen Elizabeth during her brief visit to Penticton was a wreath laying ceremony at the cenotaph. In this photograph shown to Penticton from the nation's capital, the Queen can be seen leaving her car accompanied

by the Duke of Edinburgh. Veteran units dipped their colors as the royal couple stepped from their car and RCMP trumpeters sounded a welcome. More pictures of the weekend visit to Ottawa are on page 11.

### VOYAGERS TAKE TO SAFE LAND

The British liner Hildebrand, en route from London to Lisbon, is shown here aground on the beach of Cascais, off Portugal's Raso Cape. The ship ran aground in a dense fog. The passengers were taken off by other craft and some of them line the beach here looking out at the stranded vessel. Naval authorities thought the vessel might be pulled off at high tide.

### Pipe Laid for New Skating Rink Project

About 20 residents of the West Bench turned out during the weekend for the first work party on the West Bench Centennial project. One hundred feet of water pipe was laid to supply water and irrigation for the skating rink that will be constructed on the park area adjoining the property of Bert McFarlane at the south end of the subdivision. The old skating rink was dismantled and the lumber salvaged. A preliminary survey for location of the new rink was completed in preparation for grading. Levelling of the baseball ground and removal of weeds is planned for a further work party this week.

### CCF Proposes Human Rights Amendment

OTTAWA (CP) — CCF Leader Coldwell will propose to the Commons an amendment to the constitution dealing with human rights. He has given notice of a resolution to this effect that he expects to move early in the session. The amendment would bar either Parliament or any provincial legislature from making laws that would:

1. Abridge freedom of speech, religion, press or other means of communication or the right of lawful assembly.
2. Deprive any person of life or liberty "by arbitrary or abusive measures."
3. Subject any person to unreasonable interference with his privacy, family, home or correspondence.
4. Subject any person to arbitrary arrest or detention or deny him the right after arrest to be informed promptly of any charges against him.

### Drug Discovered To Relieve High Blood Pressure

BOSTON (AP) — Two Massachusetts Memorial Hospital doctors announced discovery of what they termed an "amazing" new drug for relieving high blood pressure. Dr. Robert W. Wilkins, 50, president-elect of the American Heart Association, and Dr. William Hollander, 32, described the new drug called chlorothalidate, at a press conference. Hypertension or high blood pressure affects some 20,000,000 persons, they said. The drug, they added, has been tried on 51 patients during the last eight months. The drug has been effective on some patients who failed to respond in all other forms of treatment, the doctors said.

### City Completes Repairs to Dam

Repairs to a third dam in Penticton's water supply system have now been completed, city council was informed last night. Broken timber braces at the intake works on Ellis Number One dam, as well as broken portions of the concrete structure, have been replaced. Council was told in a report from D. K. Penfold, city's consultant on dam problems. The condition was apparently due to ice. Cost of repairs was "not a major item." Previously completed repairs to Ellis Number Four dam and a more extensive overhaul of Penticton Number One dam. Mr. Penfold recommended that all the dams be emptied before winter each year and a report made to council on their condition. The new gate for Penticton Number One dam has now arrived and is being installed which will complete the repair project there, involving installation of a new culvert and plugging of the old one.

## Rezoning of Lot Paves Way for City Apartment

Penticton city council last night made an exception in its new policy of no more spot rezoning or zoning changes until next March.

Rezoning of the lot at the northeast corner of Government Street and Nelson Avenue to a multiple dwelling area was agreed upon to permit construction of an apartment house by A. Baumann.

This exception to the rule was desirable, it was felt, because the advisory planning commission had recommended it after Mr. Baumann secured the written support of the 11 property owners in the area.

Mr. Baumann assured council

that he fully intends to go ahead with construction as soon as possible and was prepared to post a \$1,000 performance bond if necessary.

Rezoning of lot 13 on Hastings Street to C-1 to permit construction of a coffee shop was also approved. At the same time the adjoining lots 3-10 are to be rezoned from C-1 to RS-3.

Regarding application from the Presbyterian Church for completion of a lane at the rear of its property, council accepted an advisory planning commission recommendation to draft a road and lane plan for the street, Argyle and

Winnipeg Streets area.

A letter from the zoning board of appeal advised the application of George Esler to have no rear entrance to his property and had been rejected. Application of P. Ezerenko to subdivide his property into four lots was approved, providing the garage is moved back in conformity with bylaw requirements.

### ARMY GROWS

BONN (Reuters) — About 10,500 new recruits moved into barracks today to bring the total strength of the West German Armed Forces to 118,000, the defence ministry said.

### OCTOGENARIAN TAKES A WIFE

Camille Huysmans, 86, president of the Belgian chamber of representatives, is shown here with his bride, the former Mrs. Ida Smissen, after their marriage in Brussels. Huysmans had been a widower since 1955. His bride was the widow of a university professor.

THE PENTICTON HERALD  
Wednesday, October 18, 1957

### Gas Service Turn-ons Total 80 in Penticton

City of Penticton is well ahead of gas service turn-ons in its inspection duties, city council noted last night.

Ald. P. F. Eraut said that up to Oct. 7 there were 39 turn-ons in the city. Up to last night the figure was 80.

Gas inspections by the city total over 170 so far, Ald. Eraut said, pointing out that the city could not be accused of holding up natural gas service.

Bury a tin of evaporated milk in ice if you want to chill it quickly before beating.

THE SAVINGS ARE YOURS, MAKE THE...

# TOTAL TEST!

# IGA

Yes, neighbor — for proof of IGA's low every day prices we urge you to make the IGA "TOTAL TEST". We are quite sure you will be amazed at the results. HAPPINESS HAS BEEN BROUGHT to yet another Penticton youngster as Dr. R. E. Earnshaw of the Veterinary Hospital has just completed an operation for a fractured leg suffered by the small dog.

Dr. Earnshaw has been working with animals since 1944 when he first qualified as a veterinary surgeon in England.

#### SERVING THE PUBLIC

## Modern Hospital at Service of Animals

By LEN WALKER

On the operating table lay a small black dog. He was about to have a fractured front leg set by Dr. R. E. Earnshaw, veterinarian at the Penticton Veterinary Hospital. Out in the waiting room a small boy, his face tear stained, waited for his pet to make its reappearance.

Since 1954, work at the hospital has brought joy to many a youngster whose pet has become well again after treatment by the veterinarian. In three years it is es-

timated approximately 1,900 animals have received treatment at the hospital at one time or another.

Besides treating cats and dogs Dr. Earnshaw has had rabbits, hamsters, birds and other small pets hospitalized for treatment in addition to horses and cattle.

On several occasions he has undertaken to vaccinate range cattle against brucellosis on behalf of the provincial government, covering the area between Princeton and Summerland.

#### STARTED IN 1954

When the practice was started in 1954 the hospital was a small building on Main St. Today a newly constructed hospital, modern in every way, stands on Roy Ave. E.

Principal activities at the hospital is spaying and immunizing against hepatitis and distemper. Also the treating of all cases of sickness and accident.

Dr. Earnshaw said he had found the majority of animals in the district to be good natured and added they respond well to treatment.

In an area such as this with its comparatively small dog population the general health could be improved considerably if greater advantage were taken to have all young animals immunized against the diseases they get.

The treatment of animals is sim-

ilar to that applied to humans using much the same types of intravenous, anesthetics and the most modern antibiotics.

At all times the doctor works as a liaison with the SPCA. Much work for them is accomplished and the facilities of the hospital are at their disposal and are used by E. P. Berg, inspector for Penticton.

Another service provided by the hospital is the boarding of animals while their owners are away. Housed in a separate building the dogs and cats, sometimes numbering 25, are given the best care and attention.

On visiting the hospital we discovered it to be equipped fully with a modern operating table, proper kennels for the animals and the many facilities a hospital provides.

Dr. Earnshaw has been a qualified veterinarian since 1944 having taken his training in England. On arriving this side of the ocean he has practised in the East and the United States prior to coming to Penticton.

He is assisted in his work by his wife who is a qualified veterinary nurse.

When not working at the hospital, Dr. Earnshaw spends much time doing work at the Summerland experimental farm or other establishments where cattle are kept.

## Works Projects In Progress, Planned

Widening of Braesdyde Road at Skaha Lake in those sections where it is now a single lane only, is being investigated by Penticton City Council to coincide with completion of the government project further south.

As availability of incandescent fluorescent lighting on Main Street South to the forks, is to be considered in next year's budget.

Council on recommendation of its board of works committee, is taking no action on the application for water service in the Penticton Yacht Club premises on Okanagan Lake. Estimated cost of the project is \$1,000. The committee has recommended that it be considered in next year's budget.

Works projects under progress include installation of a storm drain between Nanaimo and Wade in the lane west of Main Street. Footings are also being poured for extension of the impromptu shed at the city yard and installation of the sidewalk, curb and gutter on Winnipeg Street is practically completed.

Laying of sidewalk between Wade Avenue and the Prince Charles Hotel has now begun.

A culvert was installed across Braesdyde Road and culvert pipe under driveways on Green Avenue was replaced and reggraded.

Other completed projects include placing and levelling of fill material on Skaha Lake Parking Area and gravel surfacing of Hull and Halifax Streets.

Work is underway developing a

## STUDENTS AT CITY COUNCIL FOR SOCIAL STUDIES CLASS

Fifteen Grade 12 students from Penticton High School, learned first-hand about municipal government in a democracy, last night when they attended a portion of the weekly meeting of city council.

The students, accompanied by their Social Studies 30 teacher, W. G. Gay, sat in on the stormy debate regarding the city's centennial project and listened to delegations present their case on other matters.

"They're now studying the machinery of national life," Mr. Gay explained, "which includes federal, provincial and municipal government. They came to see democracy in action."

Some of the students participated in the democratic processes by yielding their chairs when Mayor C. E. Oliver suggested that "maybe the school children would like to let the taxpayers sit down."

The students' practical demonstration was completed several hours before the meeting ended shortly after 1:30 a.m. today.

## CITY & DISTRICT

Wednesday, October 16, 1957 THE PENTICTON HERALD 3

## Weed Removal Private Duty

Weed removal along city streets and boulevards is the responsibility of adjoining property owners, Penticton city council emphasized last night.

However, to show property owners how the job should be done and to give them fair warning, council will have crews clean up the weeds this year and won't begin enforcing the law till next spring.

### City to Apply For All Water From Creeks

Penticton City Council, preparing details for finalization of its water licenses for domestic and irrigation purposes, has decided to apply for supplementary licences for pumping of water from Okanagan and Skaha Lakes. Also the city superintendent is to prepare data on all additional water available in Penticton and Ellis Creek watersheds after which the city will apply for this additional water too.

This was revealed in a report to Council last night on a committee meeting Oct. 15 at which finalization of water licenses was discussed.

It was noted that on Penticton Creek water licence 5729 provides 1,750 acre feet of water and there is under irrigation or holding charges, 1,407.9 acres. Licence 5730 provides for 45 acre feet and there is 33.1 acres under irrigation or holding charges. This makes a total of 1,441 acres.

In the Ellis Creek area there is 781.755 acres under irrigation or holding charges with 306.2 acres supplementary licence.

The city also holds a water licence for 4,025,000 gallons per day for domestic purposes which has prior rights.

Estimated requirements by 1971 are for 6,207 acre feet for domestic use.

Beginning next year, accordingly, council plans to give weed-borded owners seven days in which to remove any weeds they may be responsible for. If the weeds aren't cleaned up, the city will do the work and bill the property owner concerned for the cost.

"The average person doesn't realize it's his responsibility," observed Ald. H. M. Geddes. "Edmonton Avenue is now one of the nicest streets in town because the property owners got after their weeds. It shows what can be done."

Ald. J. G. Harris said a recent photo in the Herald implied that cleaning of tumbledweed from streets and walks was the city's responsibility.

"Actually our only neglect is that we haven't enforced the bylaw," he added.

City Superintendent E. R. Gayfer asked whose responsibility grass-seeded boulevards would be. Mr. Andrew said these too would be the property owners' responsibility to mow and keep clear of weeds.

## 12 Waterworks Ideas Under Study by Council

Twelve possible means of increasing, supplementing or improving Penticton's water supply system are being investigated by Penticton city council, it was disclosed last night.

Estimates of cost and further information are being obtained on:

1. Replacement of the North Bench flume.

2. Construction of a water main through Randolph Draw.

3. Extension of the high-line for additional pressure.

4. Enlargement or replacement of the water main in Penticton Creek channel.

5. Additional water reservoir capacity on Penticton Creek.

6. Enlargement or construction of an additional balancing reservoir on Penticton Creek.

7. Improvement to or enlargement of Ellis Number One and Number Four dams.

8. Irrigation and domestic water replacement in the Ellis Creek system.

9. Interconnecting main from Penticton Creek to Ellis Creek reservoirs.

10. Pumping from Skaha Lake.

11. Distribution in Skaha Lake area.

12. Extension of Okanagan Lake pump intake pipe.

## Sidewalks Urged for Skaha Lake District

Estimates of cost are being obtained by Penticton city council for construction of sidewalks along the two roads leading to Skaha Lake from the forks at the end of Main Street South, and along Green Avenue.

Construction of the walks, or at least gravel footpaths on one side of the streets, was urged by a delegation from the Skaha Lake area headed by J. Muzzillo, Lakeside Road.

Council agreed with Mr. Muzzillo's contention that absence of walks leaves no place for pedestrians except on the travelled portion of the streets which is dangerous in winter particularly.

Construction of the Green Avenue school makes the walks more imperative because many of the

students now riding to school by bus, will walk to the new school.

The walks would have to be maintained both winter and summer, it was pointed out.

Ald. J. G. Harris estimated that at least three miles of footpath will be required and one piece of equipment will have to be converted for sidewalk snowplowing.

#### SEWER EASEMENT

Agreement with the Newhope Benevolent Society for sewer line right-of-way on the two Pickering Street lots that the society is purchasing from the city, will require no buildings or structures on the right-of-way and raising of the sewer man-hole as necessitated by any landscaping work.

#### COUNCIL NEWS BRIEFS

## Ottawa Wants Year To Think About It

The federal department of public works wants to study possible need for improvement of the Okanagan Lake breakwater at Penticton for another year, city council was informed last night.

A letter from Ottawa, in reply to council's letter of Aug. 30, urging improvement and sheeting of the breakwater to promote the tourist industry, said federal policy is not to promote tourism on a regional basis.

Council urged the action through Frank Christian, MP for Okanagan Boundary, support of efforts by the Penticton Yacht Club. The public works letter is being forwarded to Mr. Christian at Ottawa.

#### GAS LINE ASSESSMENT

City Assessor Syd Cormock was authorized to attend the meeting of municipal assessors to be held at Penticton, Oct. 22 on assessment and tax estimates of natural gas lines.

#### NEW TRUCK TERMINAL

A letter from Canadian Freightways at Penticton advised that a new truck terminal is to be constructed in the city.

# Apathy Is to Blame for Any Centennial Neglect

Penticton is building a \$56,000 memorial to public apathy for its centennial-jubilee year project.

Informed for the past year as to the plans of the centennial committee the general public failed to rouse itself with intelligent suggestions or protests against the committee's ideas until too late. A contract has now been signed for the construction of a lakeshore pavilion, variously described by critics as "this tea house for half a dozen old women" and the "centennial folly."

A unanimous city council gave the committee and project its blessing on two occasions, and in so doing pledged itself to provide \$33,500 of the \$56,000 required. Alderman P. F. Erout insists that he did not give his approval to the scheme, but his protest now must be rejected. His silence at early meetings and failure to lift voice or hand against the project is sufficient under the municipal act as a vote of approval.

With \$7,500 coming from the provincial government as its centennial grant, \$41,000 is now assured for the pavilion. A further \$15,000 is to be raised by public subscription to complete the work and furnish the building.

Since the signing of the contract and the turning of the sod ceremony—criticized by The Herald for the speed with which both were performed—the pub-

lic has been loud in its laments. Many and varied have been the suggestions as to how the centennial monies could have been better spent—but all too late.

Like many a generation before us we are now discovering that continued apathy on our part can be costly to our pride and pocket book.

Having now launched the project, and committed ourselves in business like fashion to complete it, our differences should now be forgotten, the money raised and the pavilion completed.

True, all has not been done wisely. True, the Aquatic building at Skaha appears to have more merit. True, the homes for senior citizens would have been the best project of all—but also, sadly true, is the fact that now is not the time to try and change. The time to do that was in the months gone by when, instead of thinking, suggesting, protesting, we went our several ways without thought to the centennial or its memorial.

As is usual at such times the public is trying to place the blame for present conditions on the shoulders of the men in office. But on this occasion at least the main responsibility must be placed squarely on the shoulders of those men and women who kept their objections to themselves until it was too late.

## A Trend in the Right Direction

Canada and Great Britain have taken a step forward along the road leading to greater trade, a goal which still lies far in the future. But, still, a start has been made.

Since the election of the new national Conservative administration, the government has been much interested in increasing trade with Great Britain in an attempt to better balance the north-south flow of goods and money. It has been suggested often that 15 percent of Canadian-U.S. trade could be diverted to Britain.

The British delegation to the recent British-Canadian talks countered with a free trade proposal which left observers, and there is reason to believe Canadian representatives as well, gasping.

It is more than likely, however, that both sides realized these proposals were too sweeping at the present, certainly Canada did, and a workable three-point target for the future was announced at the conclusion of the talks. Canada, incidentally, is to be commended for not backing off completely from the discussions after Britain's proposals.

## A Great Tribute to A Canadian

Apart from Tim Buck and his close associates the whole of Canada will applaud the award of the Nobel Peace Prize to Mr. Lester Pearson.

Even his bitterest political foes have long recognized the genius of the man who, without fanfare from silver trumpets, took Canada to her loftiest position among the nations of the world.

With quiet voice but determined manner Mr. Pearson earned for Canada the role of peacemaker. Wherever trouble arose in the world Canada, through the man with the bow tie and deceptive manner, offered words of sound advice and gestures of unmistakable friendship.

Mr. Pearson is one of the few men who, with logic and the power of persuasion, was able to stop the off-cantankerous Vyacheslav Molotov in the general assembly.

These things are not new. The public has read about Mr. Pearson many thousands of times. His stubbornness when stubbornness was required, his calm logic, his fearless approach to great world leaders. What the public did not see—and rarely does see in the world of politics—was the many hours of wearying discussion outside council chambers. The long talks in hotel rooms, the aching journeys from one end of the earth to the other.

It is for such devotion to duty that Mr. Pearson has been selected for the Nobel Peace Prize.

These points include sending a Canadian trade delegation to the U.K. later this year to stimulate Canadian purchasing there; a study by Canada as to how this country can make more defence purchases in Britain, and a revision of Canadian tariffs covering purchases by Canadian tourists in Britain.

All these proposals are worthwhile and are a firm step forward in Canadian-U.K. trade matters. The delegation which Canada will send to Britain—composed of businessmen, industrialists, labor and farm representatives—should certainly be able to come up with some concrete proposals which should stimulate Canadian purchasing in Britain.

Similarly, there must be many items of a military nature which Canada could buy in the United Kingdom. They must be purchased somewhere; the money must be spent, and Britain, and Canada in turn, would benefit from the dollars so gained. For the same reason the decision to revise tariffs governing Canadian tourists' purchases in Britain should be a help to both nations.

In 1953, Mr. Pearson was president of the UN General Assembly when agreement was worked out for an armistice in the Korean War.

In 1954, discussions at London on German sovereignty and rearmament were deadlocked when Mr. Pearson stepped into the breach to help bring out a last-minute agreement. He helped arrange the Indochina armistice in 1954.

In the UN last fall he spearheaded a campaign to restore peace to the Middle East after the Israeli thrust into Egypt and the Anglo-French military intervention.

Largely as a result of his activity, the UN Emergency Force was organized to separate the belligerents. This force still is on duty in the Gaza area.

The Nobel prize has been awarded in the past to 12 Americans, eight Frenchmen, six Englishmen, three Germans, three Swedes, three Norwegians, two Belgians, two Austrians, one Dane, one Dutchman, one Argentinian, one Italian and nine international institutions.

In going to a Canadian for the first time no finer choice could have been made than "Mike"—for that was the name the man in the street came to know him by.

If the winning of the award assures him of the leadership of the Liberal party—as it should—then Canadians will rejoice again at the thought of so worthy a man continuing in public service for many years to come.

## EDITOR'S FORUM

### SOMETHING TO FORGET

(Fort William Times-Journal)  
About all that can be said about the fantastic plans of the Nazis to have the Duke of Windsor denounce Britain's war effort is that it comes under the classification of hot-weather reading.

### FINANCING THE SODA

(Woodstock Sentinel Review)  
A parking lot is a place where you pay 50 cents so you won't get fined a dollar while you go in and get a ten-cent soda that costs a quarter.

### MAY NEED A BARREL

(Kitchener-Waterloo Record)  
Even if the taxpayer had a barrel of money, as our various governments seem to assume, if

### they continue to take increasing-

ly larger amounts away from him, before long he'll have to wear the barrel.

### VITAL TO DEMOCRACY

The Guardian, Charlottetown  
A newspaper is something more than a product of private enterprise; it is in a sense a public utility, for in the dissemination of current news and views it plays a vital part in our democratic system.

No wise man ever wished to be younger. — (Jonathan Swift)

Yours very truly,  
D. P. FRASER.

IT FOLLOWED HER TO SCHOOL ONE DAY

## Library Now Covers 60,000 Square Miles

KENORA, Ont. (CP) — A librarian with a territory of 60,000 square miles provides books for communities scattered over sparsely settled northwestern Ontario.

W. A. Roedde, of the Kenora-Thunder Bay Co-operative Library, takes six weeks to cover an area larger than Nova Scotia, New Brunswick and Prince Edward Island combined. He makes the trip every three months.

His stops include prosperous company towns, tiny rural villages, railway flag stops and one-room schools. Ninety independent libraries and schools are members of the co-operative.

Librarians, teachers and students flock to the truck even in 20-below weather to choose from the 1,700 books it carries.

### LINED WITH BOOKS

The truck is a walk-in affair with six feet of headroom. Shelves of books line each side. "Three years ago I started on the first book exchange," said Mr. Roedde in an interview. "We had only six member groups then and the trip took three days."

"I was behind the wheel of a half-ton panel truck, with 500 books — our entire stock."

"Today, I drive our two-ton bookmobile with 1,700 books, plus phonograph records, film strips and pamphlets. We have a book stock of 13,000, half of which now is in use throughout our area."

The librarian said that most of the country he covers is hilly

and township and private side-roads are often hazardous.

"I remember calling at the Mabella school for the first time," he said. "This CNR flag-stop is at the bottom of a steep hill. The ice in the ruts of the road glistened. I made it down all right. But when I waved goodbye to the young teacher and her eight pupils I faced trouble."

### TOBOGGAN DELIVERY

It took three tries for the truck to make the grade and the next time Mr. Roedde took a winter trip to the settlement he stopped the truck at the top of the hill, put 60 books on a toboggan and let it go. It travelled in the rut almost to the bottom.

However, pulling the 70-pound toboggan library back up the hill wasn't as easy.

Mr. Roedde is the only full time employee of the co-operative. He buys and catalogues books, acts as secretary-treas-

urer to the library board, writes letters, keeps accounts, makes mimeographed lists and speaks to potential supporters. The tastes of the readers are different from those who frequent city libraries.

A librarian in a farm community wrote, "Don't bring any more adult books. The folks won't read them."

The librarian said many farm families are too busy to read much of anything, but when they do they want travel and practical books rather than novels. They particularly like books of which the family can make group use such as do-it-yourself or song books.

### WORDS OF THE WISE

Music is well said to be the speech of angels.  
— (Thomas Carlyle)

## Toddler Rejects Mom When Dad is Around

By Garry Cleveland Myers, Ph.D.  
Many a youngster from one to three or older prefers getting to know one parent rather than help from the other. This preference may be more pronounced when the child is ill.

Even when they are well, some youngsters, no matter how hungry or thirsty they are, won't take a drink of water or a bite of food from Mother when Dad is present, or vice versa. Such whims when humored too long can become great nuisances.

Human nature being what it is, the favored parent tends to encourage such whims, which makes the other parent unhappy.

A Pennsylvania mother writes about her son, 2: "He has always liked his daddy very much. My husband has been ever so good to him and is always taking him places."

### REJECTED HIS MOTHER

"But during his recent illness, he would have nothing to do with me. I couldn't touch him. He actually pushed me away."

"He wanted no one near him but his daddy, especially when he was very ill. In fact, when he was feeling miserable and so terribly irritable, only Daddy would do. He is getting better now, but he still prefers his father. I will do only if Daddy isn't around and if I agree with him and don't reprimand him."

"I think this is a lot of nonsense. I don't believe in pampering children unless, of course, they aren't well and then only temporarily. I am very affectionate and try to be pleasant with him, but I also believe in being firm and in spanking him when

he disobeys. "Isn't it rather unusual for a child so young to prefer his father to his mother when he is ill? How have I failed as a mother? I can't help but feel hurt about this."

"I do want him to always love his father. I'm glad my husband is so good to him, but why should he not want me at all? "I suppose there is some reasonable explanation, but a mother doesn't feel reasonable if she thinks her child doesn't love her."

### THIS WAS MY REPLY IN PART:

From your letter it is not quite clear why your baby prefers the father to you. It could be, as you indicate, that your husband pampers the child.

On the other hand, it could be that you fuss a lot and don't do anything.

### ENJOY THE BOY

You should restrain him, even spanking or disciplining him when necessary. Don't have any doubts about it. But then enjoy the boy in between. It is wonderful that the father spends so much time with this child. However, when the youngster needs some attention, and you offer it, the father would certainly be foolish to do it for him, except, of course, when he is very ill.

I hope you read a great deal to this boy. Make things with him, help him to have more fun amusing himself and at play with other children of his age.

(My bulletin, "Fathers Are Parents, Too," may be had by sending a self-addressed, U.S. stamped envelope to me in care of this newspaper.)  
King Features Syndicate, Inc.

## OTTAWA REPORT

### Grain Problem Acute on Prairies

By PATRICK NICHOLSON

OTTAWA — The proposal to advance cash to farmers, against grain stored on their farms, is being carefully considered by the government on the direct instructions of Prime Minister Diefenbaker.

The Wheat Board's failure to sell all our grain surplus in recent years has filled up our elevator storage space, which makes it impossible for all farmers to deliver all their harvest promptly into the marketing channels. Farmers at present receive cash only for that amount of their grain which the elevators can accept from them.

A preliminary study shows that there are arguments both for and against the suggested cash advances for farm-stored grain.

Some farmers complain that they cannot deliver enough of their previous harvest to supply themselves with money to meet their current obligations. This shortage of cash among farmers who own considerable wealth in the form of farm-stored grain is slowing down trade throughout their communities. Individually those farmers are need of cash to pay for their farm labor and materials, and even for some of their family needs. Collectively their cash-famine is making the prairies a depressed region in our economy.

### COST-PRICE SQUEEZE

On the other hand, most farmers are complaining less about their wealth being frozen than about the squeeze between falling prices for their farm products and rising prices for the machinery and clothing and other purchases which they have to make.

This is certainly a justified complaint. For example, four years ago farmers received for their wheat, the equivalent of \$1.86 per bushel at the Lakehead. Last year's crop will probably bring them in no more than \$1.50. Yet our bread baked from that cheaper wheat has not dropped proportionately by three cents a loaf. Nor have the prices of farm machinery and gasoline fallen by 20 per cent over the past four years, as the price of wheat has.

In the office of the director of the grain division of the Department of Trade and Commerce here, a huge map of Canada covers one wall. It is pricked with pins with heads of different colors, each color reflecting the amount of grain per acre now lying on farms and unable to be delivered to an elevator. A white pin represents less than three bushels per acre undelivered; a yellow pin between three and six bushels undelivered; and so on progressively up to dark green, dark blue and black pins representing large quantities per acre of undelivered grain. Black appropriately reflects more than 25 bushels per acre of farm-stored grain.

### THE TRIANGLE — LUCKY?

In Manitoba, the pins are nearly all white. Around Moose Jaw, they are all white or yellow. But west and north of Moose Jaw the darker colors predominate, and are sold around Kindersley. There is a triangular section of prairie, based on the U.S. border and apexed near Kindersley, where there is a heavy concentration of farm-stored grain.

Significantly, this is the Pal-

liser Triangle, or "Dust Bowl," where four or five abnormally lush harvests have been enjoyed in recent years. The surplus of wheat still on those farms should be merely the surplus production remaining, after the same amount per acre has been sold to the elevators by each prairie farmer.

There is \$450,000,000 in unsold grain lying on prairie farms today. Saskatchewan is the province hardest hit by the failure of our past marketing policy. One Saskatchewan farm in five has more than \$10,000 tied up that way, while on some farms as much as \$50,000 worth of wheat and other grains is lying in old barns or even in the fields.

This is a serious problem for the government. Trade Minister Churchill and Agriculture Minister Harmer are especially concerned to find some solution which will help all farmers equally. Cash advances may be a palliative, but the only permanent solution is larger export sales.

## Letters

Editor, The Herald.  
Dear Sir:

### PROGRESS HAMSTRUNG

With specific reference to our local fiascos, especially those presently tied in with the obstructionist tactics of those opposed to our Centennial efforts, I found something that seems to fit beautifully. Too beautifully no doubt.

"Re the menace of the 'practical common-sense' man. In working out solutions to problems, these people are a menace. They're nearly always wrong because their judgments are based upon past experiences. If they're sixty years old—their experiences are forty years old. But things are moving swiftly today, we need solutions based on what the world will be like forty years from now (1997). Thus the practical man is eighty years out of date."

The above is taken from writings of Dr. Osmond, who is very concerned with the problems of the insane in Saskatchewan.

Does it not appear that the progress of Penticton is being hamstrung and throttled by the persistent and defeatist advice of certain so-called leaders, who talk too much in this vein, "Now thirty-five years ago..." Penticton is a place with a future; but to arrive at that place in the future we need a bit more vision and leadership than we have been given in the last few months.

Let's get on with this Centennial Project. Let's throw aside the doddlers who have no faith, no imagination and no excuse for occupying the seats of the "mighty."

I thank you,  
DOUG SOUTHWORTH.

## BIBLE THOUGHT

### WORDS OF THE WISE

There is no man living who can not do more than he thinks he can.  
— (Henry Ford)

### Family favorite

So delicious, and so easy to make, too! For dependable results when you bake at home use fast-rising Fleischmann's Active Dry Yeast.

### Rye Bread

1. Measure into bowl 1/2 cup lukewarm water	Work in 2 1/2 cups (about) once-sifted rye flour to make a stiff dough.
2. Stir in 1 tablespoon granulated sugar	
3. Sprinkle with contents of 3 envelopes Fleischmann's Active Dry Yeast	
Let stand 10 minutes, THEN stir well.	
4. Punch down dough. Divide dough in half. Shape each half of dough into a loaf. Place loaves, well apart, on a cookie sheet sprinkled with cornmeal. Cover with a damp cloth. Let rise until doubled in bulk—about 1 1/2 hours. Brush each loaf with a little cold water. Bake in a hot oven, 450°, 10 minutes. Reduce heat to moderate, 350°, and continue to bake until loaves sound hollow when tapped with knuckles—20 to 25 minutes longer. Yield—2 loaves.

**SUMMERLAND BROWNIE AND GUIDE LEADERS**

Each day of the week sees a meeting of Brownies or Guides at the Youth Centre in Summerland, and the brown and blue clad girls are led in their activities by the group pictured above. Back row, left to right, Miss A. Fenwick; Tawny Owl, Mrs. Eric Tait; Brown Owl, Mrs. J. Spackie; Capt. Miss Enid Maynard; Brown Owl, Mrs. George Ryman. Second row from top, left to right, Tawny Owl, Mrs. Lawrence Charles; district commissioner, Mrs. C. E. Piers; division com-

missioner, Mrs. B. T. Blagburne; Tawny Owl, Mrs. R. S. Oxley; Brown Owl, Mrs. M. Hyde. Third row from top, left to right, Packie, Diane Durick; Packie, Ruth Lapins; Tawny Owl, Barbara Fudge; Packie, Mona Inaba; Packie, Nan Solly. Front row, left to right, Packie, Sheila Green; Packie, Dianne Haggman; and Packie, Jane Solly.

## Many Leaders Are Assisting With Girl Guide and Brownie Program

SUMMERLAND—The picture of Summerland Guiding has changed a little with the resumption of autumn's activities. Mrs. C. E. Piers, Summerland, has been appointed District Commissioner of the Summerland-Peachland District, replacing Mrs. B. T. Blagburne, also of Summerland, who is now division commissioner of the South Okanagan and Similkameen, an area extending from Peachland to Copper Mountain. Mrs. W. H. Durick, of Summerland, assumes the responsibility of division secretary-treasurer.

The 1st Summerland Brownie Pack remains under the guidance of Mrs. M. Hyde as Brown Owl, with Mrs. R. Oxley and Miss Barbara Fudge as Tawny Owls. This pack meets each Tuesday after school. Summerland's 2nd Pack, meeting on Friday, has been taken over by Mrs. J. Spackie assisted by Mrs. L. Charles.

The need for a 3rd Pack was brought about by a waiting list of many small girls of Brownie age who would not have had an opportunity to take part in the Guiding program and thus the Pack's formation was brought about, meeting on Thursday of each week. Mrs. G. Ryman is Brown Owl with Mrs. Eric Tait as her Tawny. Mrs. A. G. Bissett a warranted Guide is giving Brownie training to the Guides of the three Packs.

The Girl Guide Company has been taken over by Miss Enid Maynard who has attended Training Camps at Quesnel and Williams Creek. Mrs. A. G. Bissett is on the staff of this company which is 40 strong, as is Mrs. A. Fenwick and Mrs. S. Hodge.

A waiting list for Brownies and Guides is maintained by Mrs. C. E. Piers any mother wishing her daughter to take advantage of the Guiding program is asked to phone particulars to the district commissioner. Brownies automatically qualify for the Guide Company. It has been found to be a good idea for mothers to put their child's name in at least by her 7th birthday to be assured of a vacancy in one of the Brownie Packs. A shortage of girls has never been known, and the organization's ingenuity is constantly taxed finding willing helpers to train Brownies and Guides.

Information and training is available to any adult who wishes to work with one of these youth groups and transportation, uniform and baby-sitting help is made available. Those who like working with children are asked to contact anyone working with the organization and talk over the possibility of joining in with the people who are at present assisting in this youth activity.

Forthcoming events for the winter season include the sale of poppies for the Canadian Legion's Armistice Day, "Family Night" at the Youth Centre which is a joint Scout-Guide and Cub-Brownie affair, skating parties and hikes, "Mother and Daughter Banquet", a conference for patrol leaders from all over the division, an exchange visit with the Campfire Girls of the U.S.A., which means a representation of Guides going south of the border next spring.

These events are mainly for Guides who are beginning to learn their responsibilities toward the community and are in addition to the regular Brownie and Guide program which teaches initiative, leadership, citizenship and the accomplishment of home duties, hobbies and intelligence through the medium of many Guide and Brownie badges.

If there is a Brownie or Guide in the home the mother is asked to get in touch with her Guide.

### Kel-Esten Circle Is Entertained by Mrs. S. W. Penty

Eighteen members and one guest attended the October meeting of the Kel-Esten Circle of the Penticton United Church Women's Federation held at the home of Mrs. S. W. Penty, West Bench. Mrs. Mayo Johnson was in the chair for the business of the meeting which dealt with plans for the forthcoming annual church bazaar. Hostesses at the social hour which followed adjournment were Mrs. Bert Coates, Mrs. Ed Corrie and Mrs. J. N. Crippa. The next meeting will be held November 13 at the home of Mrs. SCHOOL — WOMEN'S ... B.T. W. H. Cumberland.

## AROUND TOWN

### St. Andrew's L.A. Plans for Bazaar

Interest of members at the October meeting of St. Andrew's Presbyterian Church Ladies' Aid was focussed on plans concerning the annual bazaar to be held November 2 in the Legion Hall.

The fund raising event is being sponsored by all groups within the church and will feature many attractions; a fish pond, a country store, candy and home cooking booths and afternoon tea.

President Mrs. Archie Fead conducted the well-attended meeting held at the home of Mrs. Andrew Gillespie, Moose Jaw Street. Prior to business of the afternoon, a devotional service was led by Mrs. G. L. Docker.

Following adjournment a pleasant social hour was concluded with the serving of refreshments by Mrs. Gillespie.

Mrs. C. Lesuk of Trail is visiting with her son-in-law and daughter, Mr. and Mrs. Victor Misulka, 583 Alberta Avenue. The three of them spent Thanksgiving weekend at Salmon Arm with Mr. Misulka's parents, Mr. and Mrs. Mike Misulka.

Mr. and Mrs. J. R. Kirby left yesterday to return to their home at Detroit, Michigan, after visiting in Penticton for the past four months with Mrs. Kirby's brother, R. K. Gurney, and sister, Mrs. L. L. Wilkins.

Miss Barbara Hyndman has returned to Vancouver after accompanying her parents, Mr. and Mrs. E. E. Hyndman, and sister Terry on a Thanksgiving weekend motor

trip to Spokane. Miss Hyndman, who graduated from UBC last spring, is attending business school at the coast city.

Former residents of this city, Mr. and Mrs. Fred Paul of Kelowna, were visitors here yesterday.

Mr. and Mrs. W. A. Rathbun spent the Thanksgiving weekend holidays at Lake Chelan.

Mrs. Daniel Ehman has returned home after spending the past two weeks in Vancouver.

Mr. and Mrs. V. Y. Bryant were here from Nelson to spend the Thanksgiving weekend with the latter's parents, Mr. and Mrs. Warren B. Rolls.

Mr. and Mrs. Jack Low of Vancouver were holiday weekend visitors in Penticton with the former's mother, Mrs. Ida Low, Woodruff Avenue.

### Former Residents of Naramata are Hosts At Family Reunion

NARAMATA—Former Naramata residents, Mr. and Mrs. N. A. "Bus" Wheatley, were hosts at a family reunion on October 12 at their new home in Regina. Among those present for the happy occasion were the former's brother, J. E. Wheatley, whom he had not seen for 12 years, Mrs. Wheatley and daughter Janice of Montreal.

Others joining the family gathering were a sister, Mrs. Wendall A. Dent of Prince Albert; an aunt, Miss Gertrude Chegwin, "Moose Jaw"; an uncle, Dr. Arthur E. Chegwin, and two cousins, Mrs. Jack Parry and Willis Chegwin, and their families, all of Regina.

During the afternoon a party was held to honor Judy, the elder daughter of the young hosts, on the occasion of her third birthday. Ten little cousins were present for the happy celebration.

That evening the family group made a telephone call to Naramata to Mr. and Mrs. N. F. R. Wheatley and Mr. and Mrs. J. A. Ganes, parents of the former Okanagan Valley residents.

### School Teacher Will Address PTA Meet

The Penticton Primary-Elementary Parent-Teacher Association will meet tomorrow at 8 a.m. in the high school cafeteria.

Ald. A. C. Kendrick, a local school teacher, will be guest speaker. His subject will be "Grouping for Better Learning."

Refreshments will be served at the close of the meeting.

## LET'S EAT

### Canned Fruits Are A Help in Dieting

"What part should canned fruits take in the diet for reducing?" inquired the Chef.

"Properly selected," I replied, "canned fruits can be very helpful, because they supply variety, soft bulk and pleasant flavor."

#### DIETETIC FOODS

"Dietetic pack fruits are often used. These are usually canned in water, without sugar. I usually drain them, pour over a little fruit juice and enjoy them well-chilled. However, one can also buy sugarless, artificially sweetened canned fruits. A squeeze of lemon juice will help the flavor."

"How about fruits canned in syrup, Madame?"

"When canned in light syrup they are delicious for family service and for not too drastic reducing. But if canned in heavy syrup, they contain more calories and are so over-sweet even the natural flavor is clouded."

#### FANCY PACKS

"I cannot understand why manufacturers of canned fruits put up all their 'fancy packs' in heavy syrup that clouds the fine flavor. The only way I can use them is to drain off all the syrup and douse the fruit with lemon or lime juice."

Every food shopper would be well repaid by taking time to read the labels on canned fruit and select either the light syrup, or dietetic water pack which can be sweetened to taste.

If they are not carried in your local food market, why not ask the manager to stock them?

#### TOMORROW'S DINNER

Chilled Grapefruit Sections  
Italian Meat Loaf with Green Peppers  
Sweet Potatoes  
Green Limas  
Apricots in Light Syrup or Peneche Fingers  
Coffee or Tea Milk  
All measurements are level; recipes proportioned to serve 4 to 6

### TWILIGHT Drive-In Theatre

### OSOYOOS NOTES

OSOYOOS—Mr. and Mrs. Louis Drazda spent the weekend in Spokane.

Mr. and Mrs. Howard Lyons and family spent the holidays with the Clarence Lyons' family.

Dan McInnis, of Kamloops, visited at the home of Mr. and Mrs. Fred Hebzig.

Mr. and Mrs. Jim Kish and daughters spent Thanksgiving in Wenatchee.

Mr. and Mrs. Edgar Kilback, formerly of Osoyoos, are the proud parents of a baby girl, born in St. Martin's Hospital in Oliver on October 5.

Mrs. John Schweitzer, Jr., is visiting her husband's parents, Mr. and Mrs. John Schweitzer.

Mr. and Mrs. Rex Pellet, of Hope, are renewing old acquaintances here.

Mr. and Mrs. Fred Hebzig spent Thanksgiving in Wenatchee.

Mr. and Mrs. Ken Jorde and family, of White Horse, are visiting relatives around Osoyoos and district.

Visiting at the home of Mr. and Mrs. Murray Holmes is his son, Robert, who is stationed at Esquimalt with the navy.

Mrs. Dick Willson has been visiting her daughter, Marion, a nurse-in-training at Vancouver.

## OPEN FOR INSPECTION FRI.-SAT., OCT. 18-19

You are cordially invited to inspect two brand new N.H.A. homes located at 1435 and 1445 Government street, built by C. Hayter and both having the latest modern interior and exterior construction. Each house has three bedrooms and separate livingroom-dining room and kitchen, also all ceramic tiled bathroom and full basement. One basement has drive-in garage. One house is oil-heated and the other with gas. Both fine homes can be bought direct from the owner-builder. Ask for complete information and down payment by phoning 9-2181.

## Try my wonderful GLAZED PEACH PINWHEEL PUDDING!

Cut in finely  
1/2 c. chilled shortening  
Make well in dry ingredients; add  
1/2 c. milk  
and mix lightly with a fork, adding milk, if necessary, to make a stiff dough. Knead 10 seconds on floured board. Roll out to 8 x 12-inches. Spread with  
1/4 c. thick raspberry jam

Sprinkle with  
2 tbsps. chopped almonds  
Arrange peaches over dough, beginning at a short edge, roll up into 6 slices. Place, cut side up, in greased 7 x 11-in. pan. Bake in hot oven, 400°, 25 mins. Meantime, bring to boil, stirring, 1 tsp. granulated sugar, 1 tsp. corn starch, few grains salt, 1 tbsps. lemon juice, 1 c. peach syrup (use water, if necessary, to bring measure up to 1 pt.) Stir in  
1 tbsps. butter or margarine and  
1/4 tsp. almond extract

Four over partially cooked pinwheels. Bake about 20 mins. longer. Yield—6 servings.  
Protect all your ingredients with dependable MAGIC! Get light and tender results... get MAGIC Baking Powder soon!

## Church Choir Honors Trio at Farewell Party

Members of the Penticton United Church choir gathered in the church parlor following the Thursday evening practice to honor three of the group, Mrs. J. A. English and Mr. and Mrs. Victor Lewin, who are leaving this city to take up residence in other British Columbia centres.

Mrs. English, who has been very active with the choir for several years, will leave at the end of this month to join Mr. English who is associated with the Northwest Telephone Company at Chilliwack. They plan to make their home at Hope for the present time.

Mr. and Mrs. Lewin will go to Vancouver where Mr. Lewin will be with the Department of Transport.

Highlighting the very enjoyable social hour was a pleasing program with song selections by Mrs. English and Mrs. Lewin. Mrs. Martha Tavendale contributed two delightful and witty readings to the evening's entertainment.

Mrs. W. Wright, speaking on behalf of the guests, conveyed the regrets of all at the departure of these talented choir members, and extended good wishes for success and happiness in their new homes. At the conclusion of her remarks, she presented them with farewell gifts from the group. Choir leader, Mrs. Monica Craig Fisher, added her regrets at the loss of these

members and in her closing remarks said, "We will always remember you for the pleasure you have given with your singing while here."

Mrs. C. E. Hamilton was convenor for the delicious refreshments served by the choir executive.

### EMBLEMATIC CENTENNIAL FABRIC

"Just My Cup Of Tea," Vancouver model Nople Prestup decides at a recent fashion showing of the emblematic British Columbia Centennial fabric. She is pleased with the dress of the bright, colorful but not flamboyant material, and so is waitress Tena King with her apron. Material is especially good for beach and informal summer wear for men, women

and kiddies. Vancouver fashion writers said they found the cotton fabric—designed with a dogwood blossom, logging scene, totem pole, Legislative Buildings and old Fort Langley—pretty yet conservative enough to be worn by all.

— (Centennial Photo)

### SUMMERLAND SOCIALS

## UBC Law Student Is In Ottawa for Conference

SUMMERLAND — Ken Brawn, son of Mr. and Mrs. V. Brawn, flew to Quebec City this week-end to attend a student conference there. He will be in Ottawa a week. Mr. Brawn who is in his final year as a law student is vice-president of the UBC student council.

Miss Jane Williams of the teaching staff of the Trail senior high school was a Thanksgiving visitor at the home of her parents, Mr. and Mrs. G. E. Williams in Trout Creek.

Miss Jill Sanborn of Vancouver visited her mother, Mrs. D. L. Sanborn, during the weekend.

Alan Minty of Vancouver has returned to the coast following a visit at the home of Mr. and Mrs. A. K. Macleod.

Mr. and Mrs. W. F. Ward and the former's brother, Wm. Ward are on a trip to Grande Prairie and other centres in the Peace River area visiting friends and relatives. They report a foot of snow at Grande Prairie.

Mr. and Mrs. J. R. Butler are

### PRESERVERS

When you are making a cake, be sure you preheat the oven long enough to bring it to the desired temperature before putting the cake in. If you put the cake in before the desired temperature is reached, it may be tough when done.

## Peachland News

PEACHLAND — Regular meeting of the Women's Institute was held on Friday afternoon in the Municipal Hall. After the business session Leona Webber entertained members by telling of her interesting experiences, and life, while attending Guide camp at Doe Lake this summer.

Hostesses for the afternoon were Mrs. F. E. Witt and Mrs. F. Wright.

The November meeting will be the annual, with election of officers.

Mrs. L. Watts has returned home following a holiday of three weeks at the coast.

Mr. and Mrs. V. Milner-Jones are leaving on Saturday for Vernon, where they will spend the weekend.

W. L. Sanderson has been discharged from the Penitentiary Hospital, while Mrs. Frank Gilliam, who has been a patient in the Kelowna Hospital this week, is returning to her home on Saturday.

## New Aids Will Lighten Those Household Tasks

By ELEANOR ROSS

It takes but a cursory survey of stores and showrooms to realize that things are getting better for homemakers all the time. Many of the new coverings are of vinyl plastic that need only light mopping or wiping with soap or detergent suds, then a clear water rinse to keep them colorfully handsome.

### EASY INSTALLATION

It is no longer necessary to cope with awkward 8-foot lengths of floor covering when you put down these new surfaces. Modern coverings are made in tiles or planks so that even a novice can install them with success.

The finishes are charming, too. For instance, there's a translucent vinyl tile with a dimensional look of real marble which promises to become very popular for entrance halls and bathrooms. Then there is a handsome cork-backed vinyl tile to spark up a

kitchen. With this type, those of us who pride ourselves on being individual and highly artistic can create our own designs. Laundry carts come, laundry carts go, but here's one that's here to stay.

First of all, it is made of lightweight aluminum and rolls gaily along on plastic casters. The basket part consists of three bags, hung from the frame, which help to keep colored things separate.

### HANDY SORTER

For example, a white muslin bag is labeled to hold white things, a blue one holds colored items, a pink one holds specialties. Each identification is stamped clearly in big black script on the appropriate bag. How's that for a handy sorter?

With the problem of proper exposure as important as it is, we don't have to apologize for harping on the subject of taking pains to keep within reasonable limits of accuracy.

Some popular types of film have fairly recently enjoyed rather startling changes in speed. If you happen to be using this new film as you did its predecessor, you may be in for a shock. If you haven't acquainted yourself beforehand with its new characteristics. Although the film offers amazing latitude in that it can be over or underexposed to quite a degree and still produce worthy prints, it is a simple matter to stay comfortably within limits of accuracy and enjoy still greater picture quality.

Come to think of it, if you are even more interested in staying comfortably within your budget, why not get in the thrifty habit of picking up your photo supplies at CAMEO PHOTO SUPPLIES, 464 Main St.? From a roll of film to the camera of your choice, you will find that CAMEO PHOTO SUPPLIES is the best thing that ever happened to your photo hobby by budget. Phone 2616.

## Woman Is Chief Cook At Construction Camp

By JIM PEACOCK  
Canadian Press Staff Writer

GLACIER, B.C. (CP) — Mrs. Isobel Hodgson has been catering to the tastes of workmen for 15 years from the cook cars of Manitoba to the campsites of the Alaska highway.

Now she is chief cook at the federal works department's trans-Canada highway construction camp a quarter mile from this railway station at the foot of Cheops Mountain in Glacier National Park. All summer she has been the only woman among 200 men on the road-building job.

"I'm a little bit strict on the boys," she says, "but I don't think they mind. I don't get any complaints."

A robust woman of about 50 years, she has cooked for as many as 40 men at the camp, where she spent all last winter and stayed on for the summer with only one trip to an outside point.

### IN OLD SCHOOL

Her dining room is a converted school house where 30 to 40 years ago the children of railway section workers attended classes. Pinned above the blackboard is a drawing in color of a union jack which she and her two-man staff salvaged and cleaned when the camp opened.

Directly below the flag is a printed sign "no smoking." Unwritten but strictly enforced is another rule "no talking." "When men come in and sit down at a meal, they come to eat," Mrs. Hodgson reasons. "And they can use a little peace and quiet."

"They've got lots of time to talk after they get out of the dining room. There's nothing personal in it and I think the boys soon learn that. I find it works pretty good."

### GOOD TIME TO THINK

"Meal time is the only time when

men on jobs like this get a chance to think about themselves. After they learn they can't talk at the table, they start to think."

Mrs. Hodgson will talk at length on the problems of running a camp kitchen. She must order all her groceries from Revelstoke or Golden, 40 miles west and east respectively. Meat is shipped in by train from Calgary. There are no stores in this region, reached only by train.

"It's just as simple to order and cook for a lot of people as for a few," Mrs. Hodgson says. "You must order more or less."

"The food is always good," said one of the men who has been eating at Mrs. Hodgson's dining room for six months. "I've never heard any one complain... and nobody ever goes hungry."

### HOUSEHOLD HINT

Gilt frames on pictures or mirrors should be treated gently. To clean, moisten a pad of soft cloth with a mixture of equal parts of ammonia and denatured alcohol. Apply to the frame with a very light pressure. Follow with a dry pad to take up the soil, and proceed to the next area.

### MARY GRANNAN

One thing about Mary Grannan, you can always spot her — even from the back; she wears the biggest hats, and always has, in Canadian radio. She may be better known to the young fry as "Just Mary," that weaver of fascinating tales about people like "Maggie Muggins" and many others.

### MARY HAWORTH'S MAIL

## Fear Has Young Women Emotionally Exhausted

Dear Mary Haworth: Several months ago you helped me with a problem, and now I am writing in behalf of a very good friend.

Joyce is in her early thirties, mother of two sweet girls, and has a very considerate husband. She knows she has everything in the world to live for, yet she is plagued by anxiety. This fear has her emotionally exhausted.

She doesn't sleep nights, and thinks only of very terrible things that might happen to her family. She has felt rejection in her childhood and is quite insecure emotionally.

When I explain to her that God is good, and that we must accept life as a mixture of good and bad, she cries out that she hasn't any faith at all, because of all the terrible evil in the world.

Joyce is very intelligent, and wants and needs help urgently. Please try to help her break the grip of this fear that has seized her. I thank you! Sincerely, K.P.

### BODY AND MIND ARE OVERSTRAINED

Dear K.P.: According to my observation of people's problems, there is no single factor at the root of so much and such diffuse distress as you describe. I think, rather, that this kind of fear is a complex psychosomatic development.

That is to say, a net result of cumulative stress of body and mind — with mental and physical strain interacting, one progressively aggravating the other, until gradually both mind and body yield to a sick sense of despair.

In order to restore health of mind and body, the pattern of what's wrong will have to be traced. And I think a good way to begin is by reading Dr. E. M. Abrahamson's and A. W. Prezel's book "Body, Mind and Spirit" (Holt), which lays bare the relation between mental depression and blood sugar deficiency. And which tells how to correct the blood sugar imbalance, and keep it in repair, thus improving emotional tone — all by a simple diet, faithfully adhered to.

However, I think there is still

more to the picture than this, in Joyce's case. Her cry that she has no faith at all that God is good, because of all the terrible evil in the world, suggests that she has an additional problem of disordered conscience.

In all probability she is, basically, a morally sensitive person — although she may have grown up without benefit of religious training and with no "religious feeling" insofar as she knows. She may consider herself to be an agnostic or even an atheist — in the sense of "believing only what she sees," and thus concluding "realistically" that the material universe is the whole show — and mankind but meaningless specks of matter, along with the rest.

But whatever her theories, her frantic emphasis on having no faith, and on "the terrible evil in the world," indicate a subjective state of spiritual turmoil and tension. She is far from being the stoic materialist ("the child of darkness") that she may assume she is, mayhap as a result of having "just grooved" like Topsy.

### GIVE CONSCIENCE CHANCE AT LIGHT

Thus, as a further part of her cure, she ought to expose herself, quite seriously and open-mindedly, to the story of religion in mankind's history — and give enlightenment a chance to dawn in her life.

In the great city from which you write, she has rich resources to draw upon, in the field of spiritual teaching and therapy. You might pray for her, and she might pray with you, asking the help of the Holy Spirit in finding God's answers to her needs. —M.H.

Mary Haworth counsels through her column, not by mail or personal interview. Write her in care of Penticton Herald, Penticton, B.C.

ALREADY BOTTLED SASKATOON (CP) — Gathering her crop of cucumbers, Mrs. Arm and Porreault found one that was already "pickled" in an empty bottle. The cucumber had grown to 3½ inches in the old bottle.

### CAMERA CATCHES ROCKET BLAST

Made a split second apart by a high-speed sequence camera, these photos catch a Convair F-102A Delta Dagger all-weather jet intercept or at the moment of firing its supersonic rockets during tests at Holloman Air Force Base, Alamogordo, N.M. At top, the first rockets leave firing tubes in missile bay doors for the unseen target. At bottom, 2-10ths of a second later, the full blast of exhaust from the 24-rocket salvo becomes a mass of flame stream behind the tail, while rockets pass beneath its needle nose.

## Gov't Probes Ore Shipments to Japan

VICTORIA (CP) — The provincial government is investigating large-scale shipments of iron ore to Japan from a Vancouver Island mine which started this week, Mines Minister Kiernan said yesterday.

The big Japanese ore carrier Nisshun Maru was scheduled to sail from Port McNeill with 14,500 tons of ore from the New Empire Development Co. mine at Quatsino.

More shipments to Japan are planned.

The government, which wants to conserve B.C. iron ore for a future steel industry here, is powerless to block these exports, but could take action to discourage them.

One way would be through imposition of the 10 per cent mineral property tax enacted at the spring legislature session.

This tax was drawn up specifically for the purpose of discouraging iron ore exports, and will only be applied to iron ore mines.

To date, the tax has not been imposed on any firms but there are indications the government may slap it on Empire Development Co.

#### COMPLEX WORK

TOKYO, Reuters — Prof. Abematsu of Osaka University has compiled a 16,000 word Japanese-Mongolian dictionary, with the new Mongolian system that uses the Russian alphabet instead of the traditional vertical script.

## CENTENNIAL PROJECT — No. 2

# Reasons for Choice of Pavilion

EDITOR'S NOTE:—In this second of a three-part series of articles on Penticton's centennial-jubilee project, how it came to be selected and how it is to be financed, Centennial Committee Chairman Howard Patton describes the factors influencing the final decision. In the first article yesterday, Mr. Patton explained that 10 ideas were put forth as centennial project suggestions. These were found not feasible due to city plans and the committee's budget limitations.

All the original group of suggestions for a project were questioned for reasons similar to those mentioned in the first article.

Then a member of the committee suggested a "lakeshore pavilion" on the Rotary Park site, on Okanagan Lake. An absolute minimum of landscaping would be required. Location on the beach assured maximum summer use. Proximity to the business area and the major urban activities indicated maximum winter use.

When this suggestion gained publicity it was natural that an alternative site on Skaha Lake should be suggested.

Aquatic Club representatives attended three meetings with the committee, explaining advantages of a pavilion near the present swimming pool on Skaha Lake. It would encourage aquatic sports in the most suitable location; it was already among the long-term plans for the area; these plans also included a park.

The Aquatic Association was invited to draw up general plans for the memorial on Skaha Lake.

Plans for the structures on both sites were similar in size and in facilities, i.e., bathhouse, tea room, open-air dancing area and meeting rooms.

#### ROTARY PARK FAVORED

The following considerations seemed to favor the Rotary Park site:

(1) The site already was landscaped, allowing all available money to be spent on the building. At Skaha Lake, to properly set off such a structure, landscaping, if done for centennial year, would have to come out of funds available.

(2) Proposed funds included about \$11,000 for bathhouse facilities. Although needed in both locations, the parks board and city council had planned on more immediate construction of a bathhouse near Rotary Park. They considered this would have to be provided in any event. Such would prejudice the chances of securing the \$11,000 for the project in 1958 if it were built on Skaha Lake.

(3) The city council and the jubilee-centennial committee wanted the project to serve the greatest possible number of citizens the year round. It was thought that for winter meetings the Rotary Park site was most easily accessible and thus would be most used.

## Former Nazi Officer Gets Prison Term

MUNICH, Germany (AP) — Former Nazi field marshal Ferdinand Schoerner was sentenced yesterday by a German court to 4½ years imprisonment for ordering illegal executions of German soldiers during the war.

Schoerner, 65, is the first high-ranking German wartime military leader to be put on trial by West Germany on criminal charges.

Taken prisoner by the Americans after the war, he was turned over to the Soviet Union, which convicted him on war crimes charges.

Released in January, 1955, Schoerner returned to West Germany, where his arrival caused a storm of protest.

NEEDED FOR BOTH

The committee agreed that a pavilion would be very worthwhile and is needed on each lake. The members realized the need and value of something to encourage aquatic sports. However, for the reasons above, Rotary Park was the final choice.

When the structure itself is discussed below and its uses explained it will be evident the project is not intended to promote aquatic sports. The only relationship to this is a bathhouse in the structure, for hundreds of bathers, not necessarily for those engaged in aquatic sports.

#### THE PAVILION ITSELF

Total floor area, on one floor, is 5,000 square feet.

There are four major divisions:

(a) Change rooms for bathers: two rooms, each 22 feet by 15 feet. Entrances face the beach on the west side of Rotary Park. For winter use as a meeting area, the wall between the two rooms can be recessed, providing an area about 22 feet by 30 feet.

The toilet facilities in conjunction also can be entered from the other areas of the building for year round use.

(b) Summer tea rooms and winter meeting room or dining area: approximately 37 feet by 30 feet. A full-length glass wall on the east and north allows full view out over the lake.

(c) Open air dancing area: approximately 42 feet by 30 feet. This adjoins the tea room area and is under the same roof.

#### CAN BE ENCLOSED

It is open on the east and north. Should funds be available at a future date, it too could be enclosed with glass walls. This, with the presently closed area, would provide one large hall, 80 feet by 30 feet.

(d) Incidental areas: foyer, 20 feet by 20 feet; kitchen, 18 feet by 8½ feet; cloakroom, boiler room, storage room, life-guard room.

For full appreciation of the appearance of the pavilion it is necessary to view the architect's model to be placed on public display in local places of business.

(To be continued)

## Miss Finland Wins World Beauty Title

LONDON (CP) — Miss Finland, 18-year-old Marita Lindhal won the title of Miss World 1957. Canada's representative, Judy Welch of Toronto, was not among the seven girls chosen as finalists.

The 19-year-old Finnish beauty won \$500 and a sports car. Organization said the title should be worth about \$20,000 to her during the next year in fees for advertising and personal appearances.

Second place went to Lillian Madson, representing Denmark. Her reward was \$100. The judges gave third place to Adel Kruger of South Africa.

# Richard Fires Two As Habs Gain Tie

## Pocket Rocket Paces Montreal To 3-3 Tie With Black Hawks

By THE CANADIAN PRESS

The Richard name shines ever brighter for Montreal Canadiens of the National Hockey League. But today it's Maurice's kid brother Henri who's adding the glitter.

The Pocket Rocket slammed home two goals Tuesday night against Chicago Black Hawks and the second gave the Habits a 3-3 tie and maintained their unbeaten streak in the campaign.

Maurice, who fired three goals Sunday against Detroit, assisted on both of Henri's tallies.

The game was the only one scheduled in the league and left Montreal atop the loop with six points on two wins and two ties. Boston Bruins, in second spot with two victories in two starts, get a chance to tie for the lead tonight when they meet New York Rangers at New York.

The teams played two fast periods and then seemed to settle for the split in points during the final frame.

In the first, Nick Mickoski put Hawks one up and then Canadiens went into the lead on markers by Jean Beliveau and Richard. Ed Litzenberger connected for goals at 13:54 and 16:47, his first two of the campaign, to give Chicago a 3-2 lead at the end of the period.

Henri's second goal at 3:12 of the second pulled the teams even again and they stayed that way till the end.

Charlie Hodge, filling in for the ill Jacques Plante, handled 20 shots and Chicago's Glenn Hall stopped 21.

**FIRST HOME START**

Is tonight's action New York will be making its first home start.

Ranger coach Phil Watson has stayed with the lineup that brought New York into a strong fourth-place finish last season.

So far New York has edged Detroit, tied Montreal and lost to Boston, all on the road. The 500 percentage is fine with Watson and had him happy enough to come up with kind remarks about goalie Lorne Gump Worsley. Anytime Watson isn't needing the chunky netminder it's a sure sign he's pleased with Ranger progress.

Coach Billy Reay of Toronto Maple Leafs found all but one of his regulars at practice Tuesday, a crowd he hasn't enjoyed since early in the training grind.

Missing was Pete Conacher, who will be out a few more weeks with a damaged right knee.

Some of the Leaf forwards were a little shaky from flu attacks but as far as Reay is concerned he'll be able to go with a complete lineup Thursday when Toronto meets Montreal.

**Al Decima Rolls High Trip**

Bowling in the Tuesday Mixed league last night, Al Decima came up with the high men's triple, a 798, and high men's single, a 348.

Ann Gabora took the women's honors, collecting a 672 for the high triple and a 264 for the high single.

Two teams, Clares Clippers and Eager Beavers, tied for the team high triple with 2735. High team single went to Modern Radio with 1110.

## LIONS RECEIVE ROYAL WELCOME

VANCOUVER (CP) — An estimated 300 persons were at Vancouver's International airport Monday night to welcome home British Columbia Lions from a victorious football weekend on the prairies.

Coach Clem Crowe's rejuvenated squad kept its western conference playoff hopes alive with a 22-16 victory over Winnipeg Blue Bombers at the Manitoba Saskatchewan Roughriders at city and a 28-10 conquest of Regina.

The team was serenaded by the Lions' band and cheerleaders. Players walked from the plane to the airport waiting room over a red carpet. Players and team officials were guests of a downtown restaurant for mid-night dinner.

## Players on Move In Western Loop

SEATTLE (CP) — The Western Hockey League doesn't do too much of a return business as far as players are concerned.

League headquarters said today that of the 120 players who finished the season with WHL clubs last year, only 51 have returned to their respective clubs for the 1957-58 year.

Vancouver has only four of last year's players back—Phil Maloney, Jackie McLeod, Hugh Currie and Wiggie Wylie. Victoria Cougars have five returnees—Colin Kilburn, Doug MacAuley, Gordon Haworth, Nelson Bullock and George Wilson.

Lionel Repka, Gordie Sinclair, Ray Kinasevich, Val Fonteyne, Alex Kuzma, Art Hart and Rudy Fillion are back for Seattle.

New Westminster will have the largest return—Bev Bentley, Bob Bergeron, Max McNab, Ollie Dorohoy, Bobby Love, Arlo Goodwin, Gordie Fashoway, Ron Matthews, Arnie Schmutz and Dick Roberge.

On the prairies, Calgary has only five of its old pucksters back in uniform. They are Vic Zurko, Enio Solisizzi, Steve Witluk, Dave Duke and Mid Houghton. Winnipeg will see Danny Summers, Bill Mosienko, Murray Wilkie, Earl Ingard, Gordon Redhal and George Ford.

For the Brandon Regals it's Lucien Dechene, Howie Milford, Bill Voss, Les Colwill, Lyle Willey and Bob Chorley. Edmonton has Deny Riggan, Frank Roggeveen, Hugh Coffin, Tony Leswick, Len Lundie, Chuck Holmes, Don Polle and Jerry Melnyk.

LEW'S BIG MAN IN MILWAUKEE

Every citizen of baseball-mad Milwaukee wishes he 750,000 frenzied fans when the newly-crowned world could step into manager Fred Haney's shoes and champion Braves arrived back in Milwaukee. In give pitcher Lew Burdette just as big a buss as the winning three games against the Yanks, Lew shut one proffered here. Burdette was mobbed by some out Stengel's charges for 24 consecutive innings.

## Warriors Edge Stamps In Overtime Session

CALGARY (CP)—Winnipeg Warriors scored in overtime Tuesday night to defeat Calgary Stampede 5-4 in a western hockey league opener here before 3,189 fans.

Art Stratton of the Warriors broke the tie, scoring unassisted after less than two minutes of overtime to cap a hotly-fought game that saw the teams never more than one goal apart.

Stratton also assisted on three other Winnipeg goals. Teammate

Bill Mosienko got two, while Bruce Lea and Ross Graham got one each for the Warriors.

For Calgary, the line of Steve Witluk also getting two assists, Hucul and Blair one each.

Stampeders were ahead 1-0 in the first period but the count went to 2-2 in the second and 4-4 in the third before the short overtime session.

Although Calgary got inside the Winnipeg blueline repeatedly during the first period, especially when Kent Douglas and Danny Summers drew penalties for high-sticking and holding respectively, Stamps didn't give goalie Ray Mikulan much trouble until Witluk started a scoring play from the right boards. Fred Hucul made no mistake with a high shot to the corner.

Lea tied the score early in the second when he took a long pass from Stratton and skated in on Al Rollins unopposed.

Stamps regained the lead two minutes later when Witluk again provided a pass and Dusty Blair shot low from a scramble at left of the net.

Warriors moved back into a tie in the last minute of the second period when Mosienko, parked in front of the Calgary net after Winnipeg carried the puck into Calgary territory, swatted at a long

pass from Stratton at the left boards.

Warriors moved ahead in the third when Mosienko took a double relay from Summers and Stratton and hit the top right corner of the net. Less than three minutes later the score was tied again as Fred Hucul took a long pass from brother Sandy and hit the left corner along the ice.

Stamps fought back bitterly and Witluk again produced when he slapped a rebound past Mikulan. In less than a minute Warriors swarmed on top of Rollins and Graham slapped the puck into the net from the side of the crease.

Stratton won the game for Warriors in 1:17 of overtime when he broke into the clear alone from centre ice.

Lea tied the score early in the second when he took a long pass from Stratton and skated in on Al Rollins unopposed.

Stamps regained the lead two minutes later when Witluk again provided a pass and Dusty Blair shot low from a scramble at left of the net.

Warriors moved back into a tie in the last minute of the second period when Mosienko, parked in front of the Calgary net after Winnipeg carried the puck into Calgary territory, swatted at a long

## DEFENCEMAN JACK TAGGART SIGNS TO PLAY WITH VEES

Jack Taggart, veteran Penticton Vees defence-man, has signed to play for the Vees this season, it was announced today.

Commenting on Taggart's signing, president Gladly Parker said, "We're very pleased that Jack will be back with us this year. He's a good man and will be a big help to the team."

Taggart will be in action with the club here Friday night when they meet Vernon Canadians in the league opener.

### FROM RED SOX

## Giants Purchase Seals' Franchise

SAN FRANCISCO (AP) — The San Francisco Giants' front office moved from New York into its new office today and was faced with farm club and ball park problems.

President Horace Stoneham, who called reporters to an afternoon conference, was expected to announce that he had retained Bill Rigney as field manager of the National League club.

A few of the other developments: 1. Fred David, president of Sacramento's Pacific Coast League Solons, said he would vote against approving the sale by Boston Red Sox of San Francisco Seals to the Giants. "Nothing has been offered in the matter of compensatory damages," David said.

The Giants swapped their Minneapolis American Association franchise plus cash for the Seals franchise. No players were involved — only territories. Stoneham said he hopes to place the minor league club in a new PCL city if one can be found. Still to be settled is what the Giants will have to pay the PCL for invading its San Francisco territory.

2. Stoneham hired Jerry Donovan, veteran baseball man and president of the Seals. His duties will be determined later.

The Giant president also said he hopes to enlarge the present Seals stadium — capacity 18,075 — to at least 23,000 by adding left field bleachers. The Giants may play the entire 1958 season there although they hope the new stadium will be ready before it ends.

The Giants are liable for damages to the coast league for taking one of its prize cities, Stoneham said. He added that no offer would be made until after the coast league directors meet next month.

Leslie O'Connor, PCL president, said he thought the league can be realigned but there are no available cities "to take the place of cities such as San Francisco and Los Angeles, you can be assured of that." Brooklyn Dodgers are moving into Los Angeles.

An official of the PCL Seattle Rainiers, who declined to be named, commented on the franchise moves this way "They can put us out of business one way or the other. If we don't vote to approve the deal, they will just draft our territory."

Tallis, Vancouver Mounties general manager, said he was unable to say how his PCL club would vote on the moves.

## Tallis Adds Six Players to Mounties Roster

VANCOUVER (CP) — General Manager Cedric Tallis of the Vancouver Mounties added six Baltimore Orioles prospects to his Pacific Coast League roster Tuesday.

Three others were passed on to clubs affiliated with the Orioles on a lower classification.

Today is the deadline for deals before the minor league baseball meetings Dec. 1.

Five pitchers and a first baseman went on the Vancouver roster. They are: pitchers Elliott Coleman, Dick Fitzgerald and Dick Luebke, all moving up from San Antonio; Jim McCluskey and Richard Nebinger, two untied hurlers; first baseman Ray Barker.

Released to Knoxville was outfielder Willie Tasby. Infielders Joe Lee and Bob Bird were sent to Wilson of the Carolina League.

Tallis also announced that pitcher Charlie (Bulldog) Drummond was purchased by San Diego for the \$5,000 waiver price.

## Tallis Sees Vancouver in Major Leagues

VANCOUVER (CP)—Vancouver can be a major league baseball city within 10 years, Cedric Tallis, general manager of the Mounties ball club, told city council Tuesday.

He based his prediction on the present popularity of professional baseball in Vancouver plus anticipated growth and development of the sport here.

Meanwhile the club was having financial difficulties in its initial stages and asked the city to waive this year's \$19,000 rental charge for Capilano Stadium.

The club will make a profit this year, Tallis said, but needs capital funds with which to meet commitments involved in its original financing.

**DAILY CRYPTOQUOTE** — Here's how to work it:  
 AXYDLBAAXR  
 IS LONGFELLOW

One letter simply stands for another. In this sample A is used for the three L's, X for the two O's, etc. Single letters, apostrophes, the length and formation of the words are all hints. Each day the code letters are different.
